

Quarterly Economic Summary

Colfax County

Released: December 2020

Prepared by: Joel Salas, Economist, and Ryan Eustice, Economist

Chart 1. Matched Taxable Gross Receipts Per Quarter

The three months making up FY21 Q1 were the worst three months of the state's economic impact from COVID-19, comparing gross receipts data with the same period a year ago, despite 14 counties experiencing a year-over-year increase. The impacts were significantly worse due to lapsing federal support and no new federal aid package. Importantly, the federal bonus for unemployment benefits of an additional \$600/week expired, reducing consumer spending power.

Colfax County has seen an increase of nearly \$20M or 30% of its matched taxable gross receipts (MTGR) from Q4 FY20 to Q1 FY21, as seen in Chart 1. Colfax County's MTGR has experienced a seasonal peak in the first quarter of the fiscal year dating back to FY16. Table 1, on the next page, shows an increase of \$685K from Q1 in FY20 to FY21 of the same period. Table 1 also shows the retail trade industry contributing to the year over year growth within the

Chart 2. FY21 - Q1 Industry Size by Matched Taxable Gross Receipts

Matched Taxable Gross Receipts (MTGR) is the best tax data available to show underlying economic activity. It matches a tax payment with reported receipts for each taxpayer, by industry.

Quarterly Economic Summary

Colfax County

Table 1. Matched Taxable Gross Receipts by Industry

Industries	FY20 - Q1	FY21 - Q1	Growth	Year over year Change
Accommodation and Food Services	\$ 13,697,772	\$ 13,516,328	\$ (181,444)	-1%
Administrative/Support & Waste Management/Remediation	\$ 884,795	\$ 1,079,520	\$ 194,725	22%
Agriculture, Forestry, Fishing, and Hunting	\$ 981,001	\$ 959,978	\$ (21,023)	-2%
Arts, Entertainment, and Recreation	\$ 3,434,221	\$ 4,292,134	\$ 857,913	25%
Construction	\$ 19,929,239	\$ 18,383,602	\$ (1,545,637)	-8%
Educational Services	\$ 20,608	\$ 40,067	\$ 19,459	94%
Finance and Insurance	\$ 396,080	\$ 500,817	\$ 104,737	26%
Health Care and Social Assistance	\$ 2,379,071	\$ 3,863,300	\$ 1,484,229	62%
Information	\$ 3,422,545	\$ 2,200,608	\$ (1,221,937)	-36%
Manufacturing	\$ 1,137,818	\$ 610,223	\$ (527,595)	-46%
Mining, Quarrying, and Oil and Gas Extraction	\$ -	\$ -	\$ -	N/A
Other Services (except Public Administration)	\$ 8,156,368	\$ 5,341,901	\$ (2,814,466)	-35%
Professional, Scientific, and Technical Services	\$ 2,918,730	\$ 4,264,574	\$ 1,345,844	46%
Public Administration	\$ 9,927	\$ 9,515	\$ (411)	-4%
Real Estate and Rental and Leasing	\$ 2,892,628	\$ 3,920,691	\$ 1,028,063	36%
Retail Trade	\$ 14,778,298	\$ 16,833,360	\$ 2,055,061	14%
Transportation and Warehousing	\$ 385,345	\$ 255,381	\$ (129,964)	-34%
Unclassified Establishments	\$ 156,277	\$ 99,982	\$ (56,295)	-36%
Utilities	\$ 5,362,407	\$ 5,420,909	\$ 58,501	1%
Wholesale Trade	\$ 726,183	\$ 822,018	\$ 95,835	13%
All Industries	\$ 83,005,619	\$ 83,690,884	\$ 685,265	1%

industry increasing by \$2M, or 14%. The construction industry, which makes up 22% of the county's MTGR (as seen in Chart 2, page 1), saw an 8% year over year decrease.

Gross receipts tax (GRT) revenue collections rose significantly in Q1 FY21, as seen in Chart 4. From Q4 FY20 to Q1 FY21 quarterly collections increased by 43%. When comparing Q1 FY20 to Q1 FY21 year over year quarterly collections are up 2%.

HB6, passed in 2019, made widespread tax changes within New Mexico. One notable change is the conversion to destination-based sourcing that will begin after a two-year delay. During the 2020 Special Session, that legislation was amended, increasing a temporary distribution to municipalities and counties. Now municipalities will receive a distribution that is a portion of \$2.5 million while counties will receive a distribution that is a portion of \$1.5 million. The amounts distributed will be proportional to the size of that community's population versus that of the entire group. These amounts are subject to change if the federal government provides municipalities and counties future grants to offset revenue declines attributable to COVID-19.

Chart 5. Quarterly Average Total Employment & Weekly Wage

Chart 6. Quarterly Initial Unemployment Claims

Chart. 7 Initial UI Claims - Weekly

A significant unexplained increase in initial unemployment claims can be an early indicator of an economic downturn. Explained increases commonly include seasonal job fluctuations, federal government shutdowns resulting in employee furloughs, or the closing of a major regional facility. This unprecedented uptick in initial unemployment claims is tied directly to the COVID-19 pandemic and subsequent furloughs and layoffs by affected businesses. As we continue into early and mid-2021, it is likely the number of initial unemployment claims will vary based on the effects of the pandemic but gradually wane; however, it is impossible to predict how quickly the employment numbers will return to pre-COVID-19 levels.

Chart 7 – Includes weekly initial claims for regular unemployment insurance (UI) but excludes pandemic unemployment assistance (PUA) and pandemic emergency unemployment assistance (PEUA) claims. Weeks shown as zero were redacted for confidentiality.

Chart 8 – Includes claimants receiving payment and pending certifications for standard UI, PUA, PEUA, extended benefits, and trade readjustment allowances. As of 11/2/2020, claimants who were initially considered eligible but have either never filed a certification or have not certified within 14 days have been removed from data, resulting in lower numbers.

Chart 8. Ongoing UI Claimants - Weekly
